National Referral Mechanism Statistics – End of Year Summary 2014

This report presents a summary of the number of potential victims of trafficking referred in to the National Referral Mechanism (NRM) in 2014.

The figures used are from the NRM data with a cut off date of 02/01/2015. Some of the cases have yet to be concluded by the Competent Authorities and decisions on their trafficking status made. The NRM is a 'living' process and data should be considered provisional until all cases are concluded. Some values may differ in future reports, or from previous reports as additional information comes to light through the duration of the cases and the records are amended accordingly.

This report does not provide any analysis of the picture of human trafficking in the UK. It provides figures relating to the number of potential victims that have been referred in to the NRM process during 2014.

NRM Statistics 2014

In 2014 the UK National Referral Mechanism (NRM) received 2,340 referrals of potential victims of trafficking (PVoT); this represents a 34% increase on 2013 referral totals. The PVoTs were reported to be from 96 countries of origin; this represents a 14% decrease on 2013 country of origin totals¹.

The 2,340 referrals were comprised of 1,432 females (61%) and 906 males (39%) and 2 (<1%) recorded as transgender. 1,669 (71%) were referred for adult exploitation categories and 671 (29%) referred for exploitation as a minor.
