

IASC Publication Scheme

The publication scheme specifies the categories of information the Independent Anti-Slavery Commissioner (IASC) publishes and how to get that information.

We publish information as outlined in the [Information Commissioner's Office](#) guidance.

This publication scheme is not a list of individual publications, but rather a description of the types of information that we are committed to publishing.

Note: *The Independent Anti-Slavery Commissioner is an independent monitoring body of the Home Office. The Commissioner's remit is set out in Part 4 of the [Modern Slavery Act](#). The Commissioner is precluded from exercising any authority relating to individual cases. This does not prevent the Commissioner considering individual cases and drawing conclusions about them for the purpose of, or in the context of, considering a general issue.*
